THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

GENERAL INFORMATION.

SUBSCRIBERS' NUMBERS.—Each subscriber's telephone is designated by a number placed to the left of his name. The number is prefixed by the name of the exchange with which the subscriber is connected. In calling for subscribers, it is necessary that both the exchange **name** and **number** be given. Subscribers are cautioned to use prefix in full.

DIRECTORY.—The current issue should be used to obtain correct numbers. The Directory is issued gratuitously by the Company to subscribers for their convenience, and not as a part of any contract between the Company and any subscriber, and the Company assumes no liability whatever because of errors or omissions in the Directory. Subscribers are requested, when they desire a change made, to notify the Company in writing.

HOW TO ANSWER A TELEPHONE CALL.—Speak in a moderate tone and directly into the transmitter with the lips as close as possible to the mouthpiece. Do not leave the receiver off the hook when the line is not in use. Remove the hand telephone from the hook and say, "Here is Oakland one-double-oh-one" (or whatever your number may be.) The party calling should say, "This is Oakland one-double-oh-two" (or whatever the number may be.) Much friction and annoyance will be avoided if this simple plan is carried out.

TELEPHONE "INFORMATION."—This department has been established to give attention to subscribers asking for general information regarding change of subscribers' number, name, location, names not in book, etc.

NON-SUBSCRIBERS.—When it is desired to have a non-subscriber called into one of our public offices at a distant place, a messenger will be sent for at the expense of the party ordering service.

CITY TELEGRAMS.—Subscribers can send messages between the hours of 8:00 a. m. and 10:00 p. m., to be written out by the receiving operator and delivered in the City for twenty-five cents for a message of twenty words or less. First, write out your message, then call for "Message Operator," and transmit to that operator, requiring her to repeat it back to you to guard against errors.

LONG DISTANCE CALLS.—To make connection with other towns, remove the hand telephone from the hook and when operator asks "Number" say "Long Distance." When the Long Distance operator answers "Long Distance" give your telephone number and name and the town, telephone number and name of party wanted.

Call "MANAGER'S OFFICE" for complaints of service, telephone out of order, etc. No rebate of rental allowed until after written notice of 24 hours, as provided in contract.

REMOVALS.—Five days written notice is required in all cases where the location of a telephone is to be changed.

We advise the use of the expression "Telephone Connection" on stationery, wagons, and in advertising, as we may be forced to change your number to meet service requirements.

MONEY TRANSFERS.—Money transfers limited to $100 may be made between stations of **The Pacific Telephone and Telegraph Company** with the permission of the nearest Division office.

The rate is one per cent on the sum transferred (providing no single charge is less than 25 cents), in addition to the cost of 2 ten-word messages.

TELEGRAMS.—All stations of **The Pacific Telephone and Telegraph Company** are being equipped as rapidly as possible with Morse telegraph instruments in order that a regular telegraph business may be done over the lines of the Company. Telegrams should be accepted by all agents and employes wherever offered for transmission. If there are no telegraph instruments at your office, the message will be telephoned to the nearest office equipped with instruments, so that it may be forwarded by telegraph from there to its destination. All employes are particularly cautioned against refusing to accept any such message.

In furtherance of this service, telegraph messages to be sent to various points on the Pacific Coast reached by the system, may be telephoned by subscribers to their nearest available Central offices, and will be telegraphed therefrom; and any such message for a subscriber will, if desired, be telephoned to him in advance of the written copy, in order to secure the earliest delivery.

NEW SERVICE

BETWEEN SAN FRANCISCO AND OAKLAND, BERKELEY AND ALAMEDA.

NOTICE TO SUBSCRIBERS.

On the date specified in the notice appearing on the outside front cover of this directory, the present practice of calling by name and address through "Long Distance" will be **discontinued** between San Francisco, and Oakland, Berkeley and Alameda, and the new rapid service, "two-number" method will become effective.

Under the new method subscribers will ascertain from the directory, the telephone number desired on the opposite side of the Bay and after giving this number to the local exchange operator, will remain at the telephone with receiver at the ear until the called number answers or the operator reports in the same manner as in calling a local number in the same city.

New numbers not listed in the directory, can be obtained by calling "Information Operator."

If the number called for is busy or does not answer, the exchange operator will so notify the calling subscriber but will make a memorandum of the call and make every effort to complete it. As soon as the called number is obtained, the operator will notify the calling subscriber and complete the connection. In such cases it will be unnecessary for the calling subscriber to duplicate or repeat the call as the operator will continue to follow it up until the connection is completed.

If the called number cannot be obtained, the operator will so notify the calling subscriber.

The new rate of 15 cents for 3 minutes and 5 cents each additional minute is a decided reduction over the present charge of 15 cents for one minute and 5 cents for each additional minute. The charge begins on the answer of the called number but none will be made unless the called number answers.

On a call from a nickel telephone, the nickel required to call central will be immediately refunded by the operator. Likewise a call from any other measured service telephone will not be counted as a local connection.

In all cases, the operator upon completion of the call, will make out a ticket covering the charge from which a bill will be made against the subscriber at the end of each month.

Don't Travel—Telephone

EXTENSION TELEPHONE IN YOUR RESIDENCE

50c. Per Month

50c. Per month

An Extension Telephone in the home is a second telephone instrument connected to your main line and placed in the library, the dining-room, in the sleeping-apartment (if you expect night calls), in the kitchen, or in any place where you may have occasion to use it.

You are liable to be summoned to the telephone at any time of the day or night and with an Extension right on the floor—no running up or down stairs—it is a great time saver.

IN SICKNESS, it means instant communication between nurse and doctor.

IN CONVALESCENCE, it means communication with the whole outside world for the patient.

IN HEALTH, it means the saving of time, temper and energy.

IN ALL CASES, it is a wise investment and the cost is trifling.

THE CITY OF OAKLAND

is very beautifully situated on the east shore of San Francisco Bay, facing the Golden Gate

The business and cheaper residential part of the city is on level land but surrounding these are beautiful oak-clad hills, from which there is a view, unmatched anywhere in the world, over the blue bay to the purple mountain, Tamalpais, and right through the Golden Gate to the Pacific.

On these low hills of Beautiful Piedmont the most charming residences in the West are springing up with curving park-ways among the Oaks, and fine boulevards for riding and driving.

The climatic conditions are ideal. Fog and cold winds are almost unknown as is uncomfortable heat. The sun shines almost the year round, but a light breeze tempered by the bay is always stirring.

The principal home-parks in the beautiful hills of Piedmont are Alta Piedmont, Central Piedmont, the Crocker Tract, Piedmont-by-the-Lake and East Piedmont Heights.

The two last named have the added advantage of overlooking the beautiful Lake Merritt, ideal for sailing or boating and being adjoined by large parks.

All these properties are owned and controlled by us. They offer unexcelled opportunity to those who desire a site for a residence either costly or inexpensive in

A situation of perfect beauty

With a magnificent climate

Clost to an orderly and well-governed city with fine churches, schools, theatres and shops,

Yet apart from its noise and discomfort in a place where the sunny days and starry nights are full of peace and quietness and serenity.

BEAUTIFUL BROCHURES DESCRIPTIVE OF BEAUTIFUL PIEDMONT WILL BE SENT TO ANY PERSON UPON APPLICATION.

The Heart of Richmond can be bought to-day for $18 a foot—$450 a lot. ¶ The property we offer lies next to the great deep water canal, already built. ¶ Men of mature judgment are buying this property, and we ask you to investigate at once. ¶ Do you know that millions of dollars are NOW invested in commercial enterprises in Richmond? ¶ Do you know that it is NOW a city of 10,000 population? ¶ Do you know this is YOUR opportunity?

HELLO! HELLO!

I want a package of Champion Washing Tablets. I can't wash my clothes without them. They are nice to use in the starch and for cleaning the iron, too.

EVERY BUSINESS MAN knows the importance of saving time where ***Time is Money.***

A Private Branch Exchange accomplishes this saving of time to the heads of depart= ments by putting them in touch with their immediate assistants.

A Private Branch Exchange will cost but little more than the service you now have.

Permit us to send a telephone expert to advise you as to your needs.

HELLO! HELLO!

I want a package of Champion Washing Tablets. I can't wash my clothes without them. They are nice to use in the starch and for cleaning the iron, too.
